

## **HMMWV MILITARY PLOW**

### **NSN #3820014732777**

- Custom designed snow plow attachment system designed specifically for use with Fisher Snowplows
- Complete headlight and plow control wiring harness designed for installation on most HMMWV model vehicles with 24 volt electrical systems
- Built for the business of snowplowing, the rugged FISHER®HD Series snowplows will withstand the rigors of any and all commercial applications. These snowplow blades are 29" high and built with heavy 11 gauge steel
- The trip-edge is backed with two reinforced cutting bars at the bottom in increase wear resistance
- All HMMWV plow systems come with the Fisher SnoFoil already installed. Engineered specifically to complement your Fisher snowplow blade, the SnoFoil's high, continuous curve funnels snow to the side, allowing snow to be piled higher
- All HMMWV plow systems come with the pre-installed cutting edge made of tough 1090 high carbon steel, these replaceable cutting edges increase wear resistance and improve cutting power and scrapping ability
